Rummikub

Monopoly

Connect 4

Yahtzee

Snakes and Ladders

Ludo

Chess and Draughts

Jigsaws

Websites

www.amathsdictionaryforkids.com/

This is great. There is a link for maths charts for every area of maths you could think of.

www.mad4maths.com/parents/

A really good site for parents and children. Lots of games to play and some explanation of objectives and calculation methods.

www.mathsisfun.com/

This is an American site however it does still have some really good games and puzzles.

www.mathschamps.co.uk

Some great games that are well explained and easy to navigate. Games are divided into age ranges.

Books

[The King's Chessboard](#)

David Birch

Doubling to high numbers.

[2X2=BOO!](#)

Loreen Leedy

Multiplication to 5X5

[Man on the Moon](#)

Simon Bartram

Time, counting, money ...

[How Big is a Million?](#)

Anna Milbourne

Comparing amounts to a million.

[One Is a Snail Ten Is a Crab](#)

April Pulley Sayre

Counting by feet to 100.

[The Very Hungry Caterpillar](#)

Eric Carle

Counting, Days, Ordering

[One mole digging a hole](#)

Nick Sharratt

Counting

Plus many, many more!!
