

Maths Newsletter

Wow—only one more half term to go. How time flies! Everyone has been extremely busy in school with their maths learning. We were extremely proud of our Year 6 children who have recently taken their SATs test. Well done to everyone. Year 4 children are busy securing their knowledge of times tables to prepare for the multiplication check which will take place after half term. Don't forget to encourage your child to use Mathletics and Times Table Rock stars or Numbots at home to practise and consolidate learning. If there are any questions, please see your child's teacher. Happy half term! Mrs White

What we have been learning this term.

A really important skill children need to learn is to tell the time. Children need to be able to learn to use a standard analogue clock first before moving on to digital 12 and 24 hour clocks. Try helping your child by asking them to notice the time at important times like going to bed, teatime and leaving for school. Any help you can give your child with telling the time will give them a head start in school.

Questions and Discussion Deepen Your Mathematical Understanding!

Studies show that doing maths with others helps you. Get together with your friends to do maths and discuss it, it will really help you!

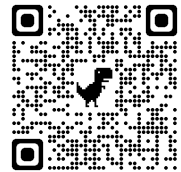

COMPETITION TIME!

Have you got maths eyes?

Take a photograph or draw what you have spotted and then write around it the maths that you have noticed. You could write questions to prompt mathematical thinking. The more creative the better. Please hand your entries in to Mrs White or email them to theoffice@longmanshill.n-yorks.sch.uk

Look out for the letter in your child's bag this week. For inspiration, scan this QR.

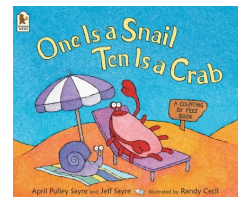

CLOSING DATE: 16TH June 2023

Maths stories

Fancy a new book? Why not try a story with a bit of maths in? Here are a few examples.

Actual size by Steve Jenkins— All ages

Jim and Beanstalk by Raymond Briggs—KS1

At the same moment around the world by Clotilde Perrin—All ages

Murderous maths series by Kjartan Poskitt—KS2

Just a second -by Steve Jenkins—All ages

Maths for mums and dads by Rob Eastaway and Mike Askew

Half termly Maths Award

FS2 Agnes Shopova-Alloway

Year 1 Millie Collins

Year 2 Aphra Collins

Year 3 Elliott Hewitt

Year 4 Eadee Pearson

Year 5 Elijah McHale

Year 6 Joshua Pieroni

Maths parent lesson drop ins

Thank you to all the parents and carers who have joined their child in their class to watch a maths lesson. The feedback we have received has been very positive. We hope you found it useful to see how we teach maths at Longman's Hill.
